CRM MODULE

GEMS™

TRANSFORM YOUR BUSINESS DEVELOPMENT &
GET AHEAD OF THE COMPETITION WITH GEMS CRM.

GEMS CRM is packed with a range of innovative features designed to increase your client base, differentiate you from the competition and streamline your sales process. Take advantage of access to more clients, enhanced data information and time-saving recruitment workflows.

COMPANIES HOUSE DATA SEARCHING

Access over 4 million company records directly from companies' house. Search and filter data to your requirements and add potential clients to your address book or campaigns.

POWERFUL DATA MINING TOOLS

Save time searching the internet for details on potential clients. Enhance client information with our innovative search engine, data mining feature and social media profile search tools.

CAMPAIGNS & WORKFLOWS

Streamline your sales and recruitment processes and ensure that you keep in touch with potential clients and candidates with bespoke campaign and workflow automation.

RESOURCING MODULE

ATTRACT MORE CANDIDATES & SIMPLIFY YOUR
RECRUITMENT PROCESS WITH GEMS RESOURCING.

GEMS Resourcing comes complete with a collection of valuable features developed to improve your candidate pool and create an efficient recruitment procedure. Take control of your recruitment operation with access to more candidates and automated job board integration.

BESPOKE JOB BOARD

Link your very own unique job board to anything you wish with a simple URL. Available candidates can view your live job ads and apply for vacancies directly into your GEMS resource pool.

JOB BOARD INTEGRATION

Keep up to date with your available vacancies, with job board integration; post, schedule and edit job ads to market-leading job boards directly from GEMS.

CANDIDATE SEARCH & IMPORT

Search market-leading CV sites for prospective candidates and import them directly into your GEMS resource pool, where you can convert them into live workers.
